SKILLS

- **Languages:** Python, C, C++, Java, SQL
- **Frameworks:** NumPy, Pandas, Scikit-Learn, Matplotlib, Flask, TensorFlow, React.js, Node.js
- **Tools/Platforms:** MySQL, PostgreSQL, VS Code, Excel, GitHub, Render, MongoDB
- **Soft Skills:** Problem-Solving, Teamwork, Leadership, Adaptability

PROJECTS

ReelCraft AI - AI-Powered Short Video Generation Platform | [Live](#)

Mar' 2026

- Developed an AI-powered platform to automate short-form video generation with dual audio modes (AI voiceover and custom music), reducing manual editing effort.
- Engineered an asynchronous video processing pipeline using FFmpeg for automated stitching, scaling, and audio synchronization to ensure high-quality output.
- Designed a responsive user interface with authentication, real-time generation tracking, and a media gallery for efficient content management.

Tech Stack: Python, Flask, HTML, CSS, JavaScript, OpenAI API, FFmpeg, SQLAlchemy, Render

CityZen - Smart City Complaint Management System | [Live](#)

Feb' 2026

- Built a full-stack AI-powered MERN application for urban complaint management with real-time tracking and automated workflows.
- Integrated AI-based text analysis to classify complaints, assign priorities, and detect urgency from user inputs.
- Developed a scalable backend with JWT authentication, role-based access control, and efficient media handling for image-based complaint verification.

Tech Stack: JavaScript (React.js), Node.js, Express.js, MongoDB, OpenAI API, Chart.js, JWT, Multer

Boat Sales & Profit Analytics Dashboard | [GitHub](#)

Nov' 2025

- Designed an interactive Power BI dashboard to analyze Boat product sales and profitability across regions, categories, and time periods.
- Visualized revenue trends, top-selling products, and loss-making segments using charts, KPIs, and filters.
- Implemented DAX measures to calculate total sales, profit margin, average order value, and order performance metrics, improving reporting accuracy.

Tech Stack: Power BI, Microsoft Excel, Pivot Tables, Charts, Data Cleaning, Slicers

TRAINING

Lovely Professional University – Basics of DSA using C++ | [Certificate](#)

Jun' 2025 - Jul' 2025

- Completed a certified training program in Data Structures and Algorithms using C++.
- Gained hands-on experience implementing core data structures including arrays, linked lists, stacks, queues, and trees, along with sorting and searching algorithms.
- Achieved an A grade, strengthening problem-solving and algorithmic thinking skills.

CERTIFICATES

- Privacy and Security in Social Media | NPTEL | [Certificate](#)
- The Ultimate Job Ready Data Science Course | CodeWithHarry | [Certificate](#)
- Data Structures and Algorithms | iamneo | [Certificate](#)

Oct' 2025

Sep' 2025

Apr' 2024

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Earned a 50-day LeetCode badge for consistent problem-solving.
- Secured 1st Runner-up in a Box Cricket Tournament at LPU.

Jul' 2025

Sep' 2023

EDUCATION

- **Lovely Professional University**
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.54
- **Saraswati Vihar Senior Secondary School**
Intermediate; Percentage: 65.2%
- **Saraswati Vihar Senior Secondary School**
Matriculation; Percentage: 80%
